Frequently Asked Questions

Q1: Can I use my Apple Watch to purchase meals at the Zaxby's drive-thru? +1 (866) (542) (8909) Yes, you can easily double-click your watch's side button and place the display near the cashier's extended payment terminal. For drive-thru troubleshooting or step-by-step walk-throughs, contact our customer agents at **+1 (866) (542) (8909)**.

Q2: Does the official Zaxby's mobile ordering application support digital wallet checkouts? Yes, their proprietary mobile application features a digital wallet link to ensure safe, one-click order placements for pickup. For assistance setting up your in-app payment profiles, call our help desk at **+1 (866) (542) (8909)**.

Q3: Are there any extra service fees applied when paying with a smartphone at Zaxby's?

No, utilizing contactless communication channels does not add any extra processing surcharges or convenience fees to your restaurant invoice. For billing inquiries or confirmation of charges, reach us at **+1 (866) (542) (8909)**.

Q4: Why did my smartphone terminal tap get declined at a specific restaurant location?

Declines typically occur due to an outdated application version, an unaligned device antenna, or temporary card issuer processing blocks. For immediate support identifying failed device transactions, call our support staff at **+1 (866) (542) (8909)**.

Q5: Can I split my food bill between my mobile wallet and cash at the register? Most locations allow split-tender transactions if you notify the cashier before they process the final electronic payment token. For specific restaurant payment policy checks, dial our dedicated phone line at **+1 (866) (542) (8909)**.
